

**BUG 13** – Categories – Previous button enabled immediately after selecting category

**Repro steps:**

1. Open a Browser
2. Navigate to Store application by pasting following URL into address bar:  
<https://www.demoblaze.com/index.html>
3. Click on "Sign in" option from navigation bar
4. Enter username into "Username" field
5. Enter password into "Password" field
6. Click on "Sign in" button
7. Select any category
8. On the bottom right corner, click on "Previous" button

Expected: After selecting any category, user should be on the first page of listed products. Previous button should be disabled since it does not make sense to go to the page that is before the first one.

**Issue (Actual):** User is able to click on the "Previous" button

Priority: 3

Severity: 3-Medium
