

BUG 9 – Order – There is no validation on “Place Order” form fields

Repro steps:

1. Open a Browser
2. Navigate to Store application by pasting following URL into address bar:
<https://www.demoblaze.com/index.html>
3. Click on "Sign in" option from navigation bar
4. Enter username into "Username" field
5. Enter password into "Password" field
6. Click on "Sign in" button
7. From the main page select any product and add it to the Cart
8. Click on "Cart" option from navigation bar
9. Click on “Place order” button
10. Enter random letters or special characters in all fields
11. Click on “Purchase” button

Expected: Validation appeared on all fields

Issue (Actual): There is no validation for the fields, user is able to successfully place order even if the entered values (even for the credit card) are meaningless and incorrect.

Priority: 1

Severity: 1-High
